Aromatic Cedar

Aromatic Cedar Plywood is far superior to lumber for lining closets or for drawer bottoms in furniture or chests. Plywood eliminates all cracks and joints common to the tongue and groove construction, and for this reason is far more mothproof. It is much more economical to install as there is practically no waste or labor in joining for wide widths.

American Walnut

CABINET GRADE

Walnut—the most beautiful wood our forests produce—yields a type of veneer which when properly handled is suited for the most elaborate interior work which may be designed. Our Walnut panels are made entirely with sliced veneers, carrying a beautiful figure varying from the plainer stripe to a livelier highly figured pattern.

Working Instructions

CUTTING

ARMORPLY should be cut with a band saw, using a small toothed blade. When cutting panels with metal one side, keep the metal side up.

PAINTING

All edges of ARMORPLY should be coated with white lead mixed with raw linseed oil before panels are applied. All rabbets or grooves also should be coated. The wood back of the panel should be primed to exclude moisture.

Clean the metal surface of ARMORPLY carefully with benzol or naphtha to remove grease and oil before priming. The usual painting procedure for metal can then be followed. If necessary to remove paint use a good commercial paint remover. Do not use a blow-torch.

FASTENING

ARMORPLY may be fastened with cement coated nails, screws, bolts or rivets. It is not necessary to fasten the panel to the uprights.

STORING

Do not store ARMORPLY in a hot, dry warehouse. Always store panels with metal faces together.

NOTE—Special discounts apply on quantity purchases. Get the prices on Armorply before bidding on any quantity work. Remember your Competitor will most likely be figuring on using Armorply.

ARMORPLY is the superior body panel because the three ply white pine back is faced with Armco Paintgrip galvanized iron. Paintgrip takes a better finish and holds it. The uniformly pure ingot iron base of the sheet assures maximum resistance to corrosion. The metal and pine plywood are welded together under hydraulic pressure with a tenacious, everlasting, waterproof glue.

ARMORPLY eliminates rattles and vibration in body sides. It insulates against heat or cold. It adds strength and saves weight. ARMORPLY has from 35 to 75 times the stiffness of steel of the same weight.

NOTE—All above prices are for Warehouse Shipment, F.O.B. Los Angeles Warehouse point, plus crating at cost. Special prices quoted on direct mill shipment.

WE ARE EQUIPPED TO MAKE DIRECT MILL SHIPMENTS OF AIRCRAFT PLYWOOD MADE TO YOUR SPECIFICATIONS, WHICH WILL MEET ARMY AND NAVY REQUIREMENTS. AT OUR EASTERN WAREHOUSES WE CARRY FOR PROMPT SHIPMENT, A LARGE VARIETY OF SIZES AND THICKNESSES WHICH ARE NOT LISTED HERE. WIRE OR TELEPHONE US AT OUR EXPENSE.

OUR PRICE POLICY

As the largest plywood house in the country carrying stocks at least 300% greater than any other, we are not only in a position to more than meet competition, but give our clientele the advantage of a wide selection.

No catalogue can meet all price situations as quantity, credit and other factors enter into each transaction.

IT IS OUR POLICY TO MORE THAN MEET COMPETITION ON MATERIAL OF SIMILAR QUALITY, AND ON MANY ITEMS WE ARE WITHOUT COMPETITION.

REMEMBER when you are in the market for any substantial quantities to telephone or wire at our expense.

13/16" TABASCO MAHOGANY—G1S		41c	29c

A large assortment of sizes in these three thicknesses of Tabasco Mahogany splendid quality panels at a real saving. When you need mahogany panels be sure to inquire about these.

All these panels are excellent stock offered at a low price because we are overstocked on these items or because the sizes are not standard with us.

All prices shown are for standard stock sizes for immediate shipment from warehouse.

When in need of special sizes, furniture cuttings, etc., give us your specifications and we will quote prices for direct mill shipment, which are usually considerably lower than for warehouse stock, due to saving in freight and handling.

The usual delivery charge of \$1.50 per thousand, with \$1.00 minimum, will be made on local deliveries.

For express or freight shipments to out-of-town points, a charge of \$1.50 will be made for less than crate lots to cover crating and cartage. However, in standard crate lots, any assortment of woods or sizes, no crating charge will be made.
